Minds Ahead	United Kingdom
Sheffield Health and Social Care NHS Foundation Trust*	United Kingdom
Wakefield College	United Kingdom

## **Academic Collaborations and Trans-National Education (TNE)**

### **Trans-National Education (TNE)**

TNE refers to *'all types of higher education study programmes, or sets of courses of study, or educational services (including those of distance education) in which the learners are located in a country different from the one where the awarding institution is based.'*

<http://www.gaa.ac.uk/en/Publications/Documents/TNE-Review-Handbook-2017.pdf>

### **Shared Delivery**

The delivery and assessment of a University award (part/full) at a partner, by both partner and University staff.

### **Distributed Delivery (Off-Site)**

The delivery and assessment of a University award at a partners' premise or via distance learning or a combination of both by University staff.

### **Franchise Delivery**

The delivery and assessment of all or part of a University award at a partner, by the staff of the partner.

### **Validated Delivery**

A course wholly or partially developed and delivered by a partner, potentially with University support and validated by the University.

## **Academic Partnerships**

### **Exchange/Study abroad**

This agreement enables our students to study at partner universities across the world with which we have formal exchange agreements.

### **Memorandum of Articulation**

The University may choose to enter into an Articulation agreement with an institution where a course of study at that institution is recognised for direct entry to a university course of study after the normal point of entry.

### **Memorandum of Understanding**

A non-binding, non-exclusive agreement with a partner body. This sets out a statement of intent but does not commit either body to specific outcomes. Any programme level arrangements subsequently approved require appropriate agreements.
