BSc (Hons) Quantity Surveying Degree Apprenticeship

Build a stronger workforce with degree apprenticeships
at Leeds Beckett University

leedsbeckett.ac.uk/degreeapprenticeships

* There may be flexibility over fees depending on the number of students from a single employer.

BSc (Hons) Quantity Surveying Degree Apprenticeship

The BSc (Hons) Quantity Surveying Degree Apprenticeship has been designed to offer flexible and optional pathways to develop skills knowledge and competencies to match business and industry needs.

Apprentices will be in full-time employment whilst studying towards this degree. Modules will be delivered through part-time day release and through work based learning and two-way knowledge transfer between industry and academia. This degree enables apprentices to develop into confident and capable quantity surveyors.

How does the degree apprenticeship work?

The course will take up to five years to complete, combining blended learning of on-the-job practical training with integrated academic learning. This blended approach is designed to be adaptable and flexible with a combination of face to face university teaching, online learning research and reflective practice and assessment.

The experiential learning section of the course focuses on the student's workplace and specific areas of project work they are undertaking. This is linked to the RICS Assessment of Professional Competence helping the student work towards the End Point Assessment for the degree apprenticeship. The employer is also expected to engage with this section of study to help the student progress through their training.

Course structure

Strong career themes run throughout all levels of the course which allows contextualisation for you to co-create

modules to meet the needs of your business.

Employer benefits

- Meet the unique needs of your business – with degree apprentices learning at work, they are able to develop the knowledge and occupational competencies demanded by specific job roles, and meet the unique needs of your business.
- Fill your higher-level skills gaps – higher-level skills are vital to business performance and economic growth. Through degree apprenticeships you can fill your higher-level skills gaps efficiently and effectively by tailoring the learning.
- Develop existing staff – you can develop your existing staff by allowing them to undertake a degree apprenticeship or enabling them to work with a degree apprentice in the workforce, through mentoring opportunities and more.

Module Titles		
Level 4 (Core)	Level 5	Level 6
Legal Frameworks and Regulation	Non Domestic Construction Technology	Contemporary Issues in the Built Environment
Documentation and Estimating	Measurement	Issues in Construction Law
Domestic Construction Technology	Experiential Learning	Experiential Learning
Collaborative Working Applications	Project Management	Contemporary Economic Modelling
Introduction to Commercial Economics	Construction Contracts	Dissertation (40 credits)
Design Economics	Measurement & Estimating	

Employer requirements

- Every apprenticeship must have an Apprenticeship Agreement. This is a contract of service between the apprentice and the employer, confirming the apprenticeship and the standard been undertaken. This will be supplemented by a 'Statement of Commitment' signed by the employer, provider and apprentice, setting out the expectations, roles and responsibility of each party involve in the apprenticeship.
- Apprentices must be employed and paid at least a minimum wage appropriate to their age and job role.
- You will be responsible for recruitment of degree apprenticeships. However, we can work with you to promote your opportunities via our website.
- You will provide paid time off for on campus study.

- Apprentices require a workplace mentor who will oversee their development and coordinate projects and learning with the University tutor.

Funding

If the annual pay bill of your organisation exceeds £3m you will pay for your apprenticeship training through your levy account.

If you are a non-levy paying organisation the government will co-fund your apprenticeship training by contributing 90% of the costs and you will pay the remaining 10% of costs.

For further information on apprenticeship funding visit the Governments website www.gov.uk/government/publications/apprenticeship-funding-from-may-2017
