# BSc (Hons) Building Services Engineering Level Six Top-Up Degree Apprenticeship

**Our new Degree Apprenticeship has been designed to offer organisations flexible pathways to develop skills, knowledge and competencies to match business and industry needs.**

Apprentices will be in full-time employment whilst studying towards this degree. Modules will be delivered through part-time day release, work based learning and two-way knowledge transfer between industry and academia. This degree will enable apprentices to develop into confident and capable management professionals.

## How does the Degree Apprenticeship work?

The course will take up to two years to complete, combining on-the-job practical training with integrated academic learning. This blended approach is designed to be flexible with a combination of face-to-face teaching, on-line learning and reflective practice and assessment. The experiential learning section of the course focuses on the student's workplace and specific areas of project work they are undertaking. This is linked to the CIBSE and Engineering Councils Assessment of Professional Competence helping the student work towards the end point assessment for the Degree Apprenticeship, which would enable students to gain accreditation as an Incorporated Engineer. The employer is also expected to engage with this section of study to help the student progress through their training.

## Course structure

Strong career themes run throughout all levels of the course which allows contextualisation for you to co-create modules to meet the needs of your business.

## Where will study take place?

Students will be required to attend the University on a day release basis.

## Module titles

- Low-Carbon buildings and renewables.
- Financial and Commercial Management.
- Intelligence Buildings.
- Building Services Systems.
- Major Design project.

## Employer benefits

- Meet the unique needs of your business – with Degree Apprentices learning at work, they are able to develop the knowledge and occupational competencies demanded by specific job roles, and meet the unique needs of your business.
- Fill your higher-level skills gaps – higher-level skills are vital to business performance and economic growth. Through Degree Apprenticeships you can fill your higher-level skills gaps efficiently and effectively by tailoring the learning.
- Develop existing staff – you can develop your existing staff by allowing them to undertake a Degree Apprenticeship or enabling them to work with a Degree Apprentice in the workforce, through mentoring opportunities and more.

## Employer requirements

- Every apprenticeship must have an Apprenticeship Agreement. This is a contract of service between the apprentice and the employer, confirming the apprenticeship and the standard been undertaken. This will be supplemented by a 'Statement of Commitment' signed by the employer, provider and apprentice, setting out the expectations, roles and responsibility of each party involve in the apprenticeship.
- Apprentices must be employed and paid at least a minimum wage appropriate to their age and job role.
- You will be responsible for recruitment of Degree Apprentices. However, we can work with you to promote your opportunities via our website.
- You will provide paid time off for on campus study.
- Apprentices require a workplace mentor who will oversee their development and coordinate projects and learning with the University tutor.

## Funding

If the annual pay bill of your organisation exceeds £3m you will pay for your apprenticeship training through your levy account.

If you are a non-levy paying organisation the government will co-fund your apprenticeship training by contributing 90% of the costs and you will pay the remaining 10% of costs.
