

Role and Responsibilities of the Learner during the Supervision and Assessment Process

Engagement

Learners should take a central role in the supervision and assessment process and actively engage in all learning opportunities.

Preparation

Learners should be suitably prepared and have a sound understanding of the proficiencies and skills they plan to achieve.

Feedback and Documentation

Learners should actively seek out PS's to support their learning and encourage feedback to be recorded in their MYEPAD.

Be Aware

Learners should be aware of their nominated PA and AA from the beginning of placement.

Raise Concern

Learners must be able to follow the correct process for raising concerns in practice.
