# Aims

- To familiarise students with various food production, catering, and food provision settings
- To orientate students to the health and social care environment,
- To develop students communication skills in a range of settings
- To introduce students to the work of a Dietitian through developing their knowledge and understanding of the Nutrition and Dietetic Care Process (NDCP)
- To provide students with an opportunity to see the Process ‘in action’ and practice a number of the steps with Service Users.
